

Compatible with VXi, Plantronics® or GN Netcom® amplifiers and cords!

# VXi Passport® 10

A quality headset means a happier, more productive agent. The lightweight, comfortable fit and clear sound provides stress free wear. The Passport 10's noise-canceling microphone blocks out background noise in the contact center for a more professional sounding call. Made with high impact plastic to withstand constant use. Choose V-series, P-series or G-series for connection to VXi, Plantronics or GN Netcom amplifiers or quick disconnect cords for easy integration in contact centers that use multiple brands.

Quick Disconnect

## Available in Three Different Models

### If you have:

### Pair with this model:

VXi Passport V-series amplifier or cord	Passport 10-V headset
VXi Passport P-series or Plantronics amplifier or cord	Passport 10-P headset
VXi Passport G-series or GN Netcom amplifier or cord	Passport 10-G headset

- Superior noise-canceling microphone effectively blocks out background noise
- Crystal clear audio on receive
- Concave ear cushion gently cups the ear for improved sound and fit
- Flexible microphone boom is easy to adjust and stays in place for proper microphone positioning
- Left or right side receiver/microphone placement
- Lightweight for all-day wearing comfort
