

Noise-cancelling microphone

Flexible to use

# The simple value for money headset **ENTERA™**

If you want a simple, value for money headset, that doesn't compromise on service and support, then choose the Entera™ headset from Plantronics.

**plantronics®**

# Plantronics Entera™

Designed to give you reliability, durability, comfort and audio quality, Entera™ offers you a simple, value for money headset. It is available as a single speaker model that can be worn on either ear, or a dual speaker model to block out background noise. Both models come with a noise reducing microphone for clear speech and low maintenance. Although the Entera headset may not offer all the features of high-end Plantronics headsets, it still comes with all the back-up, service and support you expect from Plantronics.

If you are amongst the many people who now make lengthy conference calls, the Entera Wireless headset from Plantronics means you can simultaneously write or type notes, access papers, or even just relax and enjoy your coffee, whilst talking business.
